Subject: Release of names and titles of CIA personnel

In the course of our normal review, we have come across several unclassified items in the files of L. William Seidman, Assistant to the President for Economic Affairs, that contain names and titles of CIA personnel. Dennis Daellenbach of the Ford Library staff has discussed this situation with  on your staff. They agreed that, on an ad hoc basis, we would send you a list of the names and titles in question. In turn, you would make a determination on whether the names/titles may be released at this time, and officially notify us of your decision and authority for non-release of any.

STAT

The names and titles are:

STAT  Chief, Japan/Pacific Branch, Industrial Nations Division, Office of Economic Research.

Ernst, Maurice C. Director, Office of Economic Research.

Proctor, Edward W. Deputy Director for Intelligence.

If you have any questions about this matter, please feel free to contact me.
